TIORNEYS of Lima are interest ed in the establishment of a municipal court which would take the place of the Criminal court, now handling police cases, and courts of the two justices of the peace. They should be encouraged in this movemert and it is to be hoped that their investigation will result in steps for one court to replace the three.

This arrangement would be much more satisfactory to the public as well as to the legal profession. It rould forever end the wrangles which arise from time to time between the officials charged with enforcing the laws and these administering justice. It would mean a saving in money and would abolish the fee system, the curse of justice's courts. Speedier trials would be possible and the expense to litigants would be less. This would work to the advantage of those of small means, saving them much money minor litigation now costs them under the justices' fee plan.

A special act of the legislature all he necessary to establish a municipal court here. It cannot be started for three years, the date when terms of present incumbents epire, but everything should be in readiness at that time for starting ment as a member of the internathis modern city judicial system.

USUAL Proposed that City Float Temporary Securities to Make Possible Staging of Monster Public Improvement Program Soon

Contrast With Former Day-Before Civic Body Seeks to Assist In Relieving Unemployment Situation—Citizens of Lima Expected to Take Over Bonds Issued

> That the Chamber of Commerce assist the City of Lima in floating a temporary loan to finance the city's \$2,500,000 improvement campaign, so that public work may start immediately and thus in a measure relieve the unemployment situation, will be recommended by a committee from the chamber, of which W. G. Branson is chairman.

> The committee was appointed to meet with city officials and urge immediate construction work so that citizens of Lima out of work can obtain employment on city construction work, but found that altho the city has an extensive improvement campaign planned and under way, it is unable to float bonds to finance the work for the reason that under the law the city can pay only six per cent interest.

Just what steps the Chamber of Commerce can take to relieve the situation has not been determined, but members of the committee believe that if an appeal is made to civic pride that members of the commerce chamber and citizens of Lima will subscribe to the bond issues. The starting of city construction work would mean employment for several hundred men now unems ployed, according to Branson.

According to figures submitted to the committee by City Auditor Rupert, municipal construction work now contemplated and on most of which contracts have been awarded amounts to \$2,527,972.81. Besides this there is much underground work to be done by the water works and gas companies that will mean the "old-timers" today's contrast with employment of several hundred men.

FIX STOMACH RIGHT UP

'Pape's Diapepsin' at once ends Indigestion, Gases, Sourness, Acidity

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. When your meals don't fit and you feel uncomfortable, when you

ing Back, Sprains, Brises of Rurns Quickly Relieved.

If you have severe palns, whether from rheumatism, neuritis or other causes. Hydrosal liquid—the Great Hospital Antiseptic—is marvelous in its rapidity to take away pain. Surgeons have used it in hospitals over the state for some years with great success as an anti-pain dressing after surgical operations. It doesn't artitate the skin and is non-poisonous.

The healing power of Hydrosal ointment in all skin diseases, pimples, eruptions of more serious sores or inflammations is really remarkable. It heals cuts, wounds and stubborn sores from the bottom, leaving the skin clean and clear. It can be used day or night. It is a delicate flesh color and does not stan or discolor the skin or clothing. It stops the itching and burning or ezema and other serious skin diseases almost at once. Pimples have been known to vanish over night. Hydrosal is put up in liquid and ointment form in 25c and 56c sizes, and is sold and recommended by Thompson's Three Drug Stores. Hunter's 2 Drug Stores. Keitner's Enterprise Drug Stores. Wykrantz Drug Co., and most other divisions of price.

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, beautiful, giossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. Wearing Apparel or Draperies of brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single

sign and trace of it.
You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will seed, no matter how much dandruff you have. This simple remedy never fails.

CHAMP CLARK

PASSING from this life of Hon. Champ Clark of Missouri removes from the scene of action one of the most picturesque characters the world has ever produced.

James Beauchamp Clark, as speaker of the House of Representatives, won for himself wide prominence. In the Democratic national convention in Baltimore in 1912, Clark as a candidate for the nomination of President, led on 27 ballots and had a clear majority on nine ballots, prior to the final naming of Woodrow Wilson. The two-thirds rule of the convention alone prevented Clark's nomination. The honor which his party thus paid him was the most notable of his public life.

In American political history Martin Van-Buren was the only other man who failed of the Democratic nomination for the Presidency after having received a majority of the votes in the national convention, but he enjoyed the unique distinction of being nominated and elected subsequently.

It was W. J. Bryan who prevented the nomination of Clark at Baltimore. The breach between Clark and Bryan never healed, but coolness between Clark and Wilson wore off after Wilson entered the White House and on legislative policies they worked in harmony except in one notable instance, the repeal of the Panama tolls exemption, which Clark opposed unsuccessfully.

Clark's sincerity, friendship for opponents and adherents alike, his fairness as a presiding officer and his knowledge of history; his love of clean anecdotes and humorous stories and his marvelously retentive memory ranked with his attributes of leadership. Physically he was a giant, standing over six feet two inches in height and weighing a trifle more than 200

$0 \quad 0 \quad 0 \quad 0 \quad 0$ MAKE YOUR TAX RETURN

O NLY a few days remain for the filing of income tax returns. The government has set the final date as March 15, and on that day the returns of every man and woman subject to pay this levy on income must be in the hands of the proper authorities.

Every single man or woman who had an income of \$1,000 a year during 1920 and every married man who had an income of \$2,000 during the same period must file returns. The blanks for this may be secured from the office of the deputy revenue collector in the Postoffice building, Lima. Those desiring assistance in making out their returns may secure it at the office of the deputy collector.

Unless returns are made by the time prescribed, a penalty will be charged and the offender may be fined and imprisoned if the officials believe a wilful attempt to evade the law has been made.

0 0 0 0 0 OUR FOREIGN POSTS

T is cabled upon good authority that Brand Whitlock, in Belgium; John W. Davis, in London; Ambassador Wallace in Paris and Aurbassor Johnson in Rome have decided to give up their federal associations as soon after March 4 as it is possible for the next administration to supplant them. The necessity for careful consideration of successors to these four men is plain enough. In four allied countries at least the effects of the war still are felt and our relationships are in a way strained. It is unfortunate enough to have these posts vacated at a time when diplomatic matters have

been-carried so far by the present incumbents. but it is a way we have in this country of turning over things with new administrations. Those who accept office at any one or all of these foreign posts should be men with good measure of tact, sympathy and common sense. Men who are not qualified along these lines will find their troubles multiplying rapidly and their administrations unsuccessful. It is no small task to change diplomatic representatives and not confuse national relationships. 0 0 0 0 0

JUMPING AT CONCLUSIONS

TUMPING at conclusions is a bad practice. It J often leads to action which would not be taken if a thoro investigation of the matter in hand were made. It is the safest plan to carefully weigh all evidence and then render an unbiased opinion, no matter how trivial the case with which we are dealing, whether in our private lives or public service.

Considerable controversy has been aroused in Lima over an order barring a certain theatrical attraction. There is evidence that the order was made in haste without real facts to back up the motive behind it.

Reports from other cities are that the show measures up to the standard of musical comedies and in many respects is even more modest than the usual run of light entertainments.

We are living in the age of today; not the age of our fathers and grand-fathers. Standards have changed materially. What they enjoyed we have thrown over. The altered conditions are not the work of the few, but the demand of the great public. It is the wise man. from a business standpoint, no matter whether he be a peanut vendor on the street, the publisher of a great magazine or the producer of a great stage attraction, who gives the public what it wants, not what he may think it should have. The demand may not measure up to the standard many would have but in this country where the masses determine what they want and then get it there is little alternative when public patronage is depended on for suc-

There is danger in too much regulation. Every good citizen is back of everything which makes for a wholesome community but care must be used in differentiating between that which is bad and that which is not injurious. 0 0 0 0 0

NEWS TRAVELS SLOWLY_ SOMETIMES

TITE have come to believe that we are living in an era when news of important events travels swiftly. Our telephone systems, telegraph lines and wireless stations shooting messages thru the air in every direction do afford a rapid means of transmitting accounts of happenings.

But there are to be found in this city places where one must think gladsome tidings never penetrate. There are some restaurants where the prices on the bill of fare resemble some of our big financiers' salaries for the quarter year more than anything else.

Prices of everything have tumbled until they are as low in many cases as before the war but the restauranteurs appear yet to become aware of this fact.

More farmers are wearing Goodrich Rub. ber Footwear today than ever before.

The reason for this tremendous increase in users is simple-Goodrich wears longer than other footwear, and farmers have found it out. Naturally, when a man buys a pair of Goodrich "Hi-Press" and they last so much longer and are so much more comfortable, and so materially cut down that big footwear billhe's going to tell his friends.

More and more farmers are finding out that Goodrich won't leak, peel or come apart - it can't, for it is made in One Solid Piece-that's the Goodrich way.

Market For the Product is Sough by Alaska

WASHINGTON-"Reindeer steak for two."

That is an order likely soon to be heard in many restaurants thruout the country. Marketing reindeer meat in tha

United States is one of the newest problems that hes been put up to the Bureau of Markets of the Department of Agriculture for solution. Alaska has approximately 200,000 reindeer, a number that leaves a considerable surplus over what is home consumption. Specialists estimate that Alaska :s ready to market 5,000 carcasses at present. The fact that the herds have increased from 10,000 head in in 1905 to 200,000 in 1920, indicates how soon the marketing of reindeer will be a real problem.

During the last few years export of this meat have increased rapidly in 1914 only '75 carcasses were shipped out of Alaska; in 1929 about 1,600 dressed reindeer carcasses were shipped into the United States. It is thought that within the next fifteen years there may be hetween four and five million reindeer, with an annual surplus of 1,-000,000 carcasses that must reach a market somewhere outside the Territory. At present prices, this surplus would be worth \$60,000,000.
It is reported that a company with its headquarters in Nome has already established cold storage plants for handling 12,000 carcases

for shipment to the United States. Distribution costs are high, but production costs are low. At present rates it costs about \$110 a ton to transport reindeer meat from Nome to Minneapolis. The Eskimos own 70 per cent of the herds, and the only item of production cost is that of herding the animals. Alaskan reindeer weigh about 150 pounds to the dressed carcass, but the average weight can be increased to 300 pounds by cross-breeding the reindeer with the caribon, which is a

ness Testifies WILLIAMSON, W. Va .-- (By sociated Press.) -Threats to "shoot up" Matewan and kill Chief of Police Sid Hatfield and Mayor C. Testerman were made by Albert

THREATENED

Felts, prior to the street shooting lost May 19, according to testimony Farley, a 20-year-old youth, called by the defense, told the jury that he was at Union Camp, near Matewan, when Baldwin-Felts operatives were carrying out the eviction of miners' families from Stone Mountain Coal

the shooting.

He testified that he heard Folts n charge of the work of eviction, say to one of his operatives:

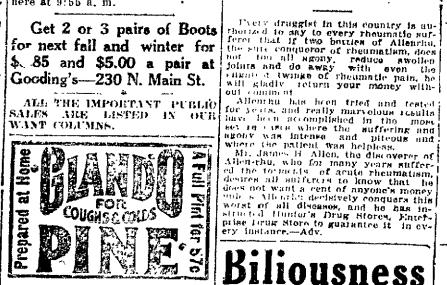

Come here a minute Cunning ham. Get your men and get ready. Get lined up down there (Matewan) this evening. When we go down we will kill Sid Hattield and Cable Testerman. We will shoot up the town and kill the organizers. We will break the strike; break this thing up. If one of our men flinches an inch, we will kill him likewise."

Farley admitted on cross-examination that he is a friend of the 1 defendants, including Sid Hatfield, on trial in connection with the killing of Albert C. Felts, during a street shooting. He said, however, that upon his return to Matewan, after bearing the remarks testified to, he did not warn Hatfleld or Tes terman, of the threat, stating "I did not think much about it."

A Rare Raisin Pie

-fresh and delicious, waits for you at your grocer's or your bake shop, or you can make one at home according to the recipe below. Serve for dessert tonight.

Filled with plump, tender Sun-Maid Raisins. Baked so the juice forms a luscious sauce. The men folks call it "rare pie," and it is.

For it's baked according to a special recipe, the result of many tests. You've never tasted better pie, if any equally as good. Nutritious, too, for raisins furnish 1560 units of energizing nourishment per pound. Try one now. Every first-class baker has this pie-or you can use the recipe below.

Raisins are rich in iron content; and it is iron in the blood that brings the bloom of youth to women's and children's cheeks.

So raisins are a "beauty food" as well as healthful and delicious.
